DEMOGRAPHIC CHANGE UNDERSCORES THE ECONOMIC IMPERATIVE OF RACIAL EQUITY
Nearly half of Chicago's current workforce, and almost 60 percent of the emerging workforce, are people of color.

Current and Emerging Workforce Demographics by Race/Ethnicity, Chicagoland Region, 2018

- White: Current workforce 53%, Emerging workforce 41%
- Black: Current workforce 16%, Emerging workforce 18%
- Latinx: Current workforce 21%, Emerging workforce 31%
- Asian or Pacific Islander: Current workforce 8%, Emerging workforce 6%
- Native American: Current workforce 0.11%, Emerging workforce 0.06%
- Mixed/other: Current workforce 1%, Emerging workforce 3%

Source: Authors' analysis of the 2018 5-year American Community Survey microdata from IPUMS USA. Note: Universe of emerging workforce includes all people under 25 years of age, while current workforce includes the employed population between the ages of 25 and 64.
A greater share of residents moving into Chicagoland are people of color, compared to those leaving the region.

Migration Status in the Last Year by Race/Ethnicity, Chicagoland Region, 2018

- White
- Black
- Latinx
- Asian or Pacific Islander
- Mixed/other

Out-migrants: 59% White, 18% Black, 13% Latinx, 8% Asian or Pacific Islander, 2% Mixed/other
In-migrants: 53% White, 17% Black, 13% Latinx, 17% Asian or Pacific Islander, 7% Mixed/other
Nonmovers: 51% White, 17% Black, 14% Latinx, 23% Asian or Pacific Islander, 2% Mixed/other

Source: Authors’ analysis of 2018 5-year American Community Survey microdata from IPUMS USA. Note: Universe includes current residents of the Chicago region age one or older and those who resided in the region during the year prior to the survey (excluding those currently living outside the US). Data reflect a 2014-2018 average.
The region's GDP could be more than $136 billion larger if racial gaps in income were eliminated.

Actual GDP and Estimated GDP with Racial Equity in the Workforce (billions), Chicagoland Region, 2018

- GDP in 2018
- GDP if racial gaps in income were eliminated

$641.7
$778.1

Equity dividend: $136.4 billion

Source: Authors' analysis of the 2018 5-year American Community Survey microdata from IPUMS USA. Note: Universe includes the population ages 25-64. Data reflect a 2014-2018 average. Values are in 2018 dollars. See the methodology for details on the analysis.
Racial equity would double the average incomes of Black, Latinx, and Native American workers to more than $68,000 per year.

Income Gains with Racial Equity in the Workforce, Chicagoland Region, 2018

- **Black**: Average income $34,907, Average income with racial equity $69,653
- **Latinx**: Average income $32,833, Average income with racial equity $69,603
- **Asian or Pacific Islander**: Average income $60,459, Average income with racial equity $70,112
- **Native American**: Average income $32,644, Average income with racial equity $68,613
- **Mixed/other**: Average income $50,399, Average income with racial equity $69,724
- **People of color**: Average income $38,702, Average income with racial equity $69,707

Source: Authors’ analysis of the 2018 5-year American Community Survey microdata from IPUMS USA. Note: Universe includes the population ages 25-64. Data reflect a 2014-2018 average. Values are in 2018 dollars. See the data and methods for details on the analysis.
LOPSIDED GROWTH PERPETUATES RACIAL ECONOMIC INEQUITIES
Low-income jobs grew more than middle- and high-income jobs, while high-income workers experienced the greatest growth in earnings.

Growth in Jobs and Earnings by Wage Level, Chicagoland Region, 1990–2018

- Low-wage
- Middle-wage
- High-wage

Black and Latinx workers are underrepresented among high-wage industries and occupations.

**Occupational Groups by Race/Ethnicity and Nativity, Chicagoland Region, 2018**

Source: Authors’ analysis of the 2018 5-year American Community Survey microdata from IPUMS USA. Note: Universe includes the employed population ages 25-64. Data reflect a 2014-2018 average.
Fewer than half of Latinx immigrants and just over two-thirds of Black and US-born Latinx workers earn at least $15/hour.

Share of Workers Earning at Least $15/hour by Race/Ethnicity and Nativity, Chicagoland Region, 2018

WORKERS FACE A SHORTAGE OF GOOD JOBS
Characteristics and Examples of Good Jobs by Typical Education Requirements, Chicagoland Region, 2019

Characteristics of good jobs:
- Living-wage compensation: Average wage for the occupation is sufficient to sustain a working family of two working adults and two children—$36,109 in Chicago.20
- Stable or growing base of employment: The number of jobs is projected to grow or to remain relatively stable for the next decade—employment in the occupation is not declining by more than 10 percent over 10 years, or more than 2 percent over 10 years for small occupations.
- Automation resilient: The occupation has a probability of computerization lower than 50 percent, given the full array of tasks that comprise the role.

Sources: Employment from 2018 5-year American Community Survey microdata from IPUMS USA, and occupational characteristics from Burning Glass job posting data and 2018 5-year American Community Survey microdata from IPUMS USA.
Two million Chicago jobs require no more than a high school diploma, but only 13 percent of them are good jobs.

Distribution of Employment by Educational Requirements and Job Quality, Chicagoland Region, 2018

- Workers not in good jobs
- Workers in good jobs

Sources: Employment from 2018 5-year American Community Survey microdata from IPUMS USA, and occupational characteristics from Burning Glass job posting data and 2018 5-year American Community Survey microdata from IPUMS USA.
White workers are overrepresented in good jobs overall, and particularly overrepresented in good jobs that do not require any postsecondary education.
Available Jobs in 2019 Could Have Closed Racial Gaps in Access to Good Jobs

In 2019, there were enough openings for good jobs over the year to close the racial equity gaps in good jobs at each level of educational attainment. For example, to close the racial gap in good jobs for jobs that require no more than a high school diploma, 45,000 workers of color would need a job upgrade; in 2019, there were 62,000 openings for good jobs at this educational level.

Still, 78 percent of the 527,000 good jobs available in 2019 required a bachelor's degree or more, underscoring the need for workforce intermediaries and employers to reexamine credentialing requirements and design pathways into these jobs for workers without a four-year degree, wherever possible.
SOCIAL DETERMINANTS OF WORK PERPETUATE RACIAL INEQUITY
Low-income Black workers are most likely to rely on public transportation for their commute.

Percent of Workers Using Public Transit by Race/Ethnicity and Earnings, Chicagoland Region, 2018

- White
- Black
- Latinx
- Asian or Pacific Islander
- People of color

Source: Authors' analysis of data from 2018 5-year American Community Survey microdata from IPUMS USA. Note: Universe includes persons age 16 or older with earnings who worked outside the home during the week prior to the survey. Data reflect a 2014-2018 average; Native American workers and other/mixed race workers are not included because of small sample size.
Black workers using public transportation face the highest average travel times to work.

Average Travel Time to Work, in Minutes, by Race/Ethnicity and Mode, Chicagoland Region, 2018

- **White**
- **Black**
- **Latinx**
- **Asian or Pacific Islander**
- **Native American**
- **Mixed/other**

About the National Equity Atlas: America’s most detailed report card on racial and economic equity.

A partnership between PolicyLink and the USC Equity Research Institute, the National Equity Atlas:

- produces innovative research to inform the field and influence policy debates;
- partners with community organizations to create tailored analyses that advance local campaigns; and
- democratizes access to equity data.
About Burning Glass Technologies

Burning Glass Technologies is an analytics software company that has cracked the genetic code of an ever-changing labor market.

Powered by the world’s largest and most sophisticated database of labor market data and talent, we deliver real-time data and breakthrough planning tools that inform careers, define academic programs, and shape workforces.

Burning Glass data have been built over 15 years with robust taxonomies and the industry’s largest in-house data science team.
